## AXI

- Ideal solution for connected single-home and apartment blocks.
- Release lever system protected by a trilobe key; can be remote activated via steel cable.
- Simplified connections and one, three-conductor cable.
- Fully covered and protected endless screw.
- On-board mechanical stops, for controlling gate travel.
- Silent and linear movement thanks to the conical torque reducer.
- Hard-wired and wireless self-diagnosing safety devices and compliance with current regulatory standards on impact forces.
